10

Figure 1

The diagram illustrates a system 100. A central processing unit 100 is shown with internal components 110, 120, 130, and 170. A curved arrow indicates a signal path from a display 150 to the central unit. The central unit is connected to a network 521 via a cable 511 and a modem 140. A speaker 160 is also connected to the system. The entire system is enclosed in a box 170.
